

Havana Outdoor, suspension design Jozeph Forakis 2005

FOSCARINI

The young, light-weight appearance recalling the shape of a cigar, which ironically gives it its name, the soft light that it emits and the ease with which it blends in with the most varied contexts, have made it the great success that it is today, so much so that it is also part of the permanent collection on exhibit at the New York MoMA. The outdoor version of Havana consists of a single polyethylene body with signs that recall its division into four segments, a division which distinguishes the design of the indoor version of Havana.

Available in white or yellow, the outdoor Havana is available as a suspension or floor lamp in two different heights.

Havana Outdoor, suspension technical info

FOSCARINI

Description

Suspension lamp with diffused light. Diffuser consisting of a single rotational moulded polyethylene part with direct coupling for assembly onto the support. Diffuser support made of polyester powder coated zamak. Electrical cable covered in neoprene for outdoor use, without ceiling flange, equipped with an IP 65 terminal board and for the countries envisaged with a second Schucko plug CEE 7/7 IP44.

Materials: polyethylene

Colours: white, yellow

Brightness
diffused light

Weight

net kg: 3,00
gross kg: 4,30

Packing

vol.m³: 0,091
n.boxes: 2

Bulbs

– halogen energy saver 1x46W E27

– compact fluorescent 1x12W E27

Cable length

Certifications

    IP 65 - IP44
