## The poetry of rain

The pure geometry of the steel-stamped hemisphere shade breaks with the voluptuous shapes of the eighteen tears that poetically hang from inside, as if they were raindrops. The metallic gold lacquer interior of the shade tinges the transparent drops imbuing them with colour and

making them glimmer. Raindrops is a pendant lamp with its own character, ideal for neutral spaces that require personality and sophisticated colours. The hanging tears in its interior provide uniform light to the space.
